About Me

Hi, I'm jagadeeswar, a third-year BTech student majoring in Computer Science(data science). I'm passionate about technology and coding. I enjoy solving problems and creating software that can make a difference in people's lives. When I'm not coding, you can find me exploring new programming languages, playing video games, and occasionally trying my hand at cooking. I'm excited to learn and grow in the ever-evolving world of computer science.

Experience

as I am a fresher don't have any experience of working but i have participated in some hackatons and expos in my college

project1
title: plant disease detection

in this project we designed a platform where a farmer can find the disease by which the plant has been effected and the farmer can use the information given by it and use the required pesticides for curing the disease in the plant

Education

2019 i have done schooling in kadapa. i have passed
gurukul vidya peeth E.M the ssc with the best gpa
high school
